

**Lighted Handle Upgrades for  
ION and Hydraulic Tools**

**Cutters**

- Quickly and easily upgrades existing 360° swiveling handles on AMK-21A and AMK-22 hydraulic cutters.
- Lighted 360° swiveling handles are standard on all ION battery powered cutters and combi tools.
- Two super-bright battery powered LED lights with three brightness settings
- Made from one-piece solid billet aluminum and hardcoat anodized

**Spreaders**

- Lighted handles for all ION battery powered spreaders (shown here) are available as an option or upgrade.
- Lighted handles can be quickly and easily upgraded on AMK-30CX and AMK-30CRT hydraulic spreaders.
- Two super-bright battery powered LED lights with three brightness settings
- Made from solid billet aluminum and hardcoat anodized

**Kit Ordering**

- KEHO 15-KIT**  
Handle with Lights Upgrade Kit for AMK-21A and AMK-22
- KEHO 16-KIT**  
Handle with Lights Upgrade Kit for ION iS240 Spreader
- KEHO 17-KIT**  
Handle with Lights Upgrade Kit for AMK-30CX, AMK-30CRT

**Control Valve Grip**

- Made from one-piece billet aluminum, black anodized and laser engraved with the new AMKUS logo
- The new shape enhances grip and precise tool control with a gloved hand
- Quick and easy conversion of your old control valve

**KV0005-KIT**

**Mono Coupler**

- Hot swappable coupler allows connecting and disconnecting of tools while the line is under flow (in most cases it's not necessary to place the directional control of the power unit in the neutral position)
- Convert standard AMKUS twin line hoses into a single connection when ordered with additional adapter

- Retro fits existing AMKUS rescue tools

**KHC013-KIT** male  
**KHC014-KIT** female

**Mono Coupler Sleeves**

- These colored sleeves can be used in identifying hydraulic lines or specific tools – aiding reaction times at deployment and standardizing departmental procedures

**KHC007YL-KIT** (yellow)  
**KHC007GN-KIT** (green)  
**KHC007RD-KIT** (red)  
**KHC007BL-KIT** (blue)  
**KHC007GR-KIT** (gray)  
**KHC007-KIT** (black)

### Extended Reach Tip (ERT)

- Accessory for spreader models AMK-24 and AMK-30CRT and upgrade available for 30CX
- Increases the spread up to 8 inches and the unique construction eliminates loss of power
- Easily add or remove with built-in push button release – no more pins to lose

**KS0029G-KIT** (set of tips)

### CX Spreader to CRT

- Convert your 30CX spreader (for models delivered after 2002) to 30CRT spreader arms with built-in push button tip release and aggressive Gator Tips (KS0017G)
- Once added these arms allow fast swapping of Extended Reach or Gator Tips

**K-30CRTARM** (set of two arms and two tips)

### Gator Tip

- Aggressive tooth pattern won't slip and beveled edges do not rip sheet metal like other tips
- Wide shoulder scoop-out cradles the load and opposing teeth grip with arms wide open
- Interlocking teeth bite down as they clamp together
- Easy-on easy-off with one gloved hand

**KS0017G-KIT** (set of tips)

### Super Swivel

- Allows for hose to be positioned or moved to prevent accidental crushing
- Hose connection can be positioned for vertical mounting when using mono couplings
- More complete maneuverability of hose and use of full length of tool connection hose

**KHC022**

### Mini Simo Power Unit

- Gas powered Honda® engine
- Two tool simultaneous operation
- Increased first stage pressure reduces cycle times
- “BOOST” mode. When in alternate tool operation, increases tool speed in both pump stages
- Newly designed 3-position control valves
- Direct mounted Standard Couplings or single connection Mono Couplings

Certified Compliant to NFPA 1936, 2015 Edition
